

PRODUCT DATA SHEET

PRODUCT INFO

PRODUCT NAME:

**Absorbent Sheets/Pads Oil-Only
White, Thin**

ARTICLE NUMBER:

A7130-1

PRODUCT DESCRIPTION:

Our Absorbents Sheets/Pads are of a unique type of polypropylene fabric with an SMS layer that provides very good absorbency for all types of oil spill such as e.g. engine oils, hydraulic oils, gearboxes, crystal oil, diesel, petrol etc. It has fast absorption and holds the absorbed product well, without the risk of drips and spills. When saturated, the rolls can absorb approx. 10-12 times its own surface weight or, in volume, over 2 litres/m² for the thinner sheets and up to 5 liters for the thicker ones. The results depend somewhat on the type, viscosity and temperature of the liquid absorbed.

WEIGHT: approx. 5.5kg/pack

THICKNESS: approx. 200g/m²

SIZE: 40cm x 50cm/Pad, Thin

STANDARD PACKAGING:

200 Pads/pack

ABSORPTION CAPACITY:

approx. 100 Lit (2.5 liters of oil/m²)
