

PRODUCT DATA SHEET

PRODUCT INFO

PRODUCT NAME:

**Absorbent Roll Universal 40
Gray, Thick**

ARTICLE NUMBER:

A7259-1

PRODUCT DESCRIPTION:

Our Universal Absorbents Rolls are of a unique type of polypropylene fabric with an SMS layer that provides very good absorbency for all types of oil spill such as e.g. engine oils, hydraulic oils, gearboxes, crystal oil, diesel, petrol etc. It has fast absorption and holds the absorbed product well, without the risk of drips and spills. When saturated, the rolls can absorb approx. 10-12 times its own surface weight or, in volume, over 2 litres/m² for the thinner sheets and up to 5 liters for the thicker ones. The results depend somewhat on the type, viscosity and temperature of the liquid absorbed.

WEIGHT: approx. 5kg/pack

THICKNESS: approx. 300g/m²

SIZE: 40cm x 40m/Roll, Thick

ABSORPTION CAPACITY:

approx. 80 Lit (5 liters of oil/m²)

QUICK GUIDE

Our polypropylene reinforced Universal Absorbent Rolls are ready to use for all types of spills - oil, chemical and universal. All have superior absorbency and great strength. If you work with liquids, chemical and oils of any kind, spills will be inevitable, make sure you have Universal Absorbent Rolls on hand. Get your spill fixed and fast.

ARTICLE NUMBER: A7259-1

- ABSORBENT MATERIAL: POLYPROPYLENE ROLLS - UNIVERSAL
- DIMPLE & PERFORATED ROLLS
- SMS LAYER (SPUNBOUND - MELTBLOWN - SPUNBOUND)
- SAFE AND ECO-FRIENDLY ABSORBENTS

These Universal Absorbent Rolls are versatile, built for durability and provide maximum absorbency in high traffic and busy problem areas.
